— MOWING SYSTEM

Mowing Width	154 cm		60,6 in
Mowing Height	5 - 20 cm		2 - 7,9 in
Number of Blades	7		
Clutch	cetrifugal		

— PERFORMANCE

Productivity	up to 9.500 m ² /h		up to 2,35 acres/h
Average Fuel Consumption	1,5 l/h		0,4 gal/h
Climbing Ability	up to 15°		up to 27%

— DIMENSIONS

Dimensions (l x w x h)	250 x 200 x 70 cm		98 x 79 x 28 in
Weight	140 kg		309 lbs

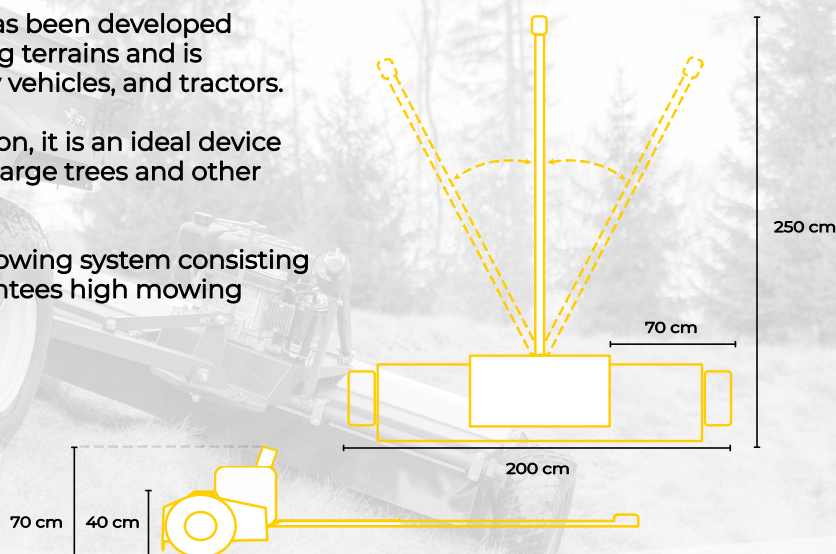

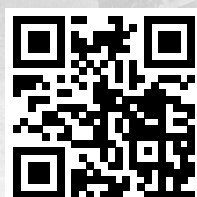

SPIDER MULTICUT pull-behind mower has been developed for regular mowing of large, slightly sloping terrains and is compatible with most types of ATVs, utility vehicles, and tractors.

Due to its low height and "side offset" option, it is an ideal device for mowing beneath solar panels, around large trees and other similar obstacles.

The MULTICUT is fitted with a patented mowing system consisting of 7 unique high-speed blades, and guarantees high mowing performance and low fuel consumption.
